Activities Report

Broula King Gold Mine

The project is situated about 230 km due west of Sydney near Bumbaldry, lying mid-way between the towns of Grenfell and Cowra in the Central West Slopes region of NSW.

The region experienced significant rain during the quarter. The site has received in excess of 30 inches for the last 7 months against a historical average of 20 inches per annum. As a result work was severely hampered throughout the period. Minimal mining and hauling was undertaken to provide for waste rock to be delivered to the ROM pad to allow for crushing and the provision of gravel to around the treatment plant site. Some low grade ore has been delivered to the ROM pad.

The crushing circuit is operational and commissioning of the grinding has commenced. Drilling for the second blast event is well advanced.

A clay and bentonite layer has been placed to seal the tailings storage facility.

Work on the processing plant is well advanced. It is anticipated commissioning of the process circuit will commence mid to late August.

Environmental monitoring is continuing to provide background data for the project.

Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 1022: Accounting for Extractive Industries* and *AASB 1026: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
