

## June 2013 Quarterly Activities Report

### BROULA KING MINE ACTIVITIES

The gold sales for the June quarter totalled AUD\$2.59m.

During the quarter, the Company treated 23,695 dry tonnes for a recovered 42,347gms including gold in circuit resulting in a recovered grade of 1.79gm/t.

As at the end of the quarter, the Project has now treated a total of 73,626 dry tonnes.

The project is now proceeding well with both the open cut and tailings dam well advanced.

Most of the upper levels of the deposit consisting of lower grade decomposed material has been mined and treated and or disposed of as waste to form the tailings dam.

Organic material in the upper levels including residual timber remnants from historical mining was an issue with handling and recovery however this issue has now in the main passed as the open cut has moved into lower more competent rock.

The tailings dam is substantially complete requiring only 4m of lift to attain final height and maximum storage.

Gold Furnace

### COMPANY DETAILS

**Principal and Registered Office:**

Resource Base Limited  
Level 17, 500 Collins Street  
MELBOURNE VIC 3000  
AUSTRALIA

**ABN:**

57 113 385 425

**ASX Code:**

RBX

**Corporate Information:**

Shareholders: 504  
Shares on Issue: 207,929,401  
Options (unlisted): 23,000,000

**Directors:**

**Managing Director:**

Alan Fraser

**Executive Director:**

Peter Kelliher

**Non Executive Director:**

Kevin Lynn

Angelo Siciliano

Tailings Dam

Throughput was down marginally due to a restriction on crushing hours and the increasing hardness of the ore. During the quarter the Company made application to the local Shire to increase crusher operating hours by 4 hours over the existing 55 hours. It is anticipated a determination will be made by council in mid August.

To overcome the ore hardness the ball mill charge was lifted however further consideration as to ball mill throughput is still under review.

Metallurgical testing is being undertaken in regard to the integration within the circuit of a set of spirals to better classify the ore upstream from the CIP circuit to increase the residence period and improve recovery.

During the quarter gold prices fell from close to US\$1,600 down to approximately US\$1,250 per ounce. Stocks in ASX listed junior miners/explorers have fallen to all time lows. The company is actively seeking out further gold opportunities or outright purchase. The absence of liquidity in the market provides the Company with a window of opportunity in terms of further projects.

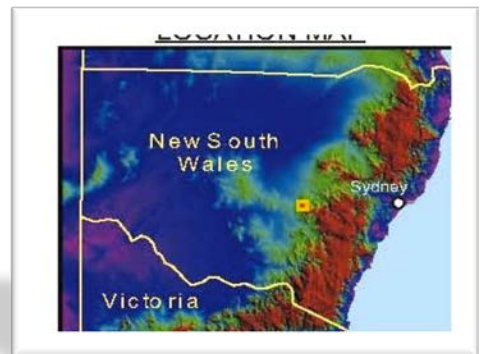

Processing Plant – 24 Hour Operation

Crushing Circuit

The Company has in-house, extensive and relevant experience in regard to project acquisition, environmental impact statements, plant procurement and construction and looks to leverage its position from the Broula King gold project. The Company will continue to monitor this position.

## Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 1022: Accounting for Extractive Industries* and *AASB 1026: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
