

ASX RELEASE
31 December 2013

December 2013 Quarterly Activities Report

BROULA KING MINE ACTIVITIES

The Broula King project is situated about 230 km due west of Sydney near Bumbaldry, lying mid-way between the towns of Grenfell and Cowra in the Central West slopes region of NSW, located approximately 500 meters from the main road. The company completed the treatment plant and became operation in September 2012.

The gold sales for the December quarter totalled AUD\$2.848m.

During the quarter, the Company treated 27,380 dry tonnes for a recovered 73,900gms including gold in circuit resulting in a recovered grade of 2.7 gm/t.

As at the end of the quarter, the Project has now treated a total of 128,562 dry tonnes.

The open cut is well advanced and the full internal road network is in place. Minor rehabilitation of the site has commenced.

The tailings dam is substantially complete requiring approximately 1m of lift to attain final height and maximum storage.

Following metallurgical testing a set of four double start spirals was incorporated into the circuit in the September quarter to better classify the ore upstream from the CIP circuit and to increase the residence period and improve recovery (see updated flow sheet). Recovery has improved confirming this action.

The gold price has continued to wane however the fall in the Australian dollar has worked to mitigate the fall in the gold price during the quarter.

COMPANY DETAILS

Principal and Registered Office:

Resource Base Limited
Level 17, 500 Collins Street
MELBOURNE VIC 3000

Angelo Siciliano

The company is actively seeking out further gold opportunities or outright purchase. The absence of liquidity in the market provides the Company with a window of opportunity in terms of further projects.

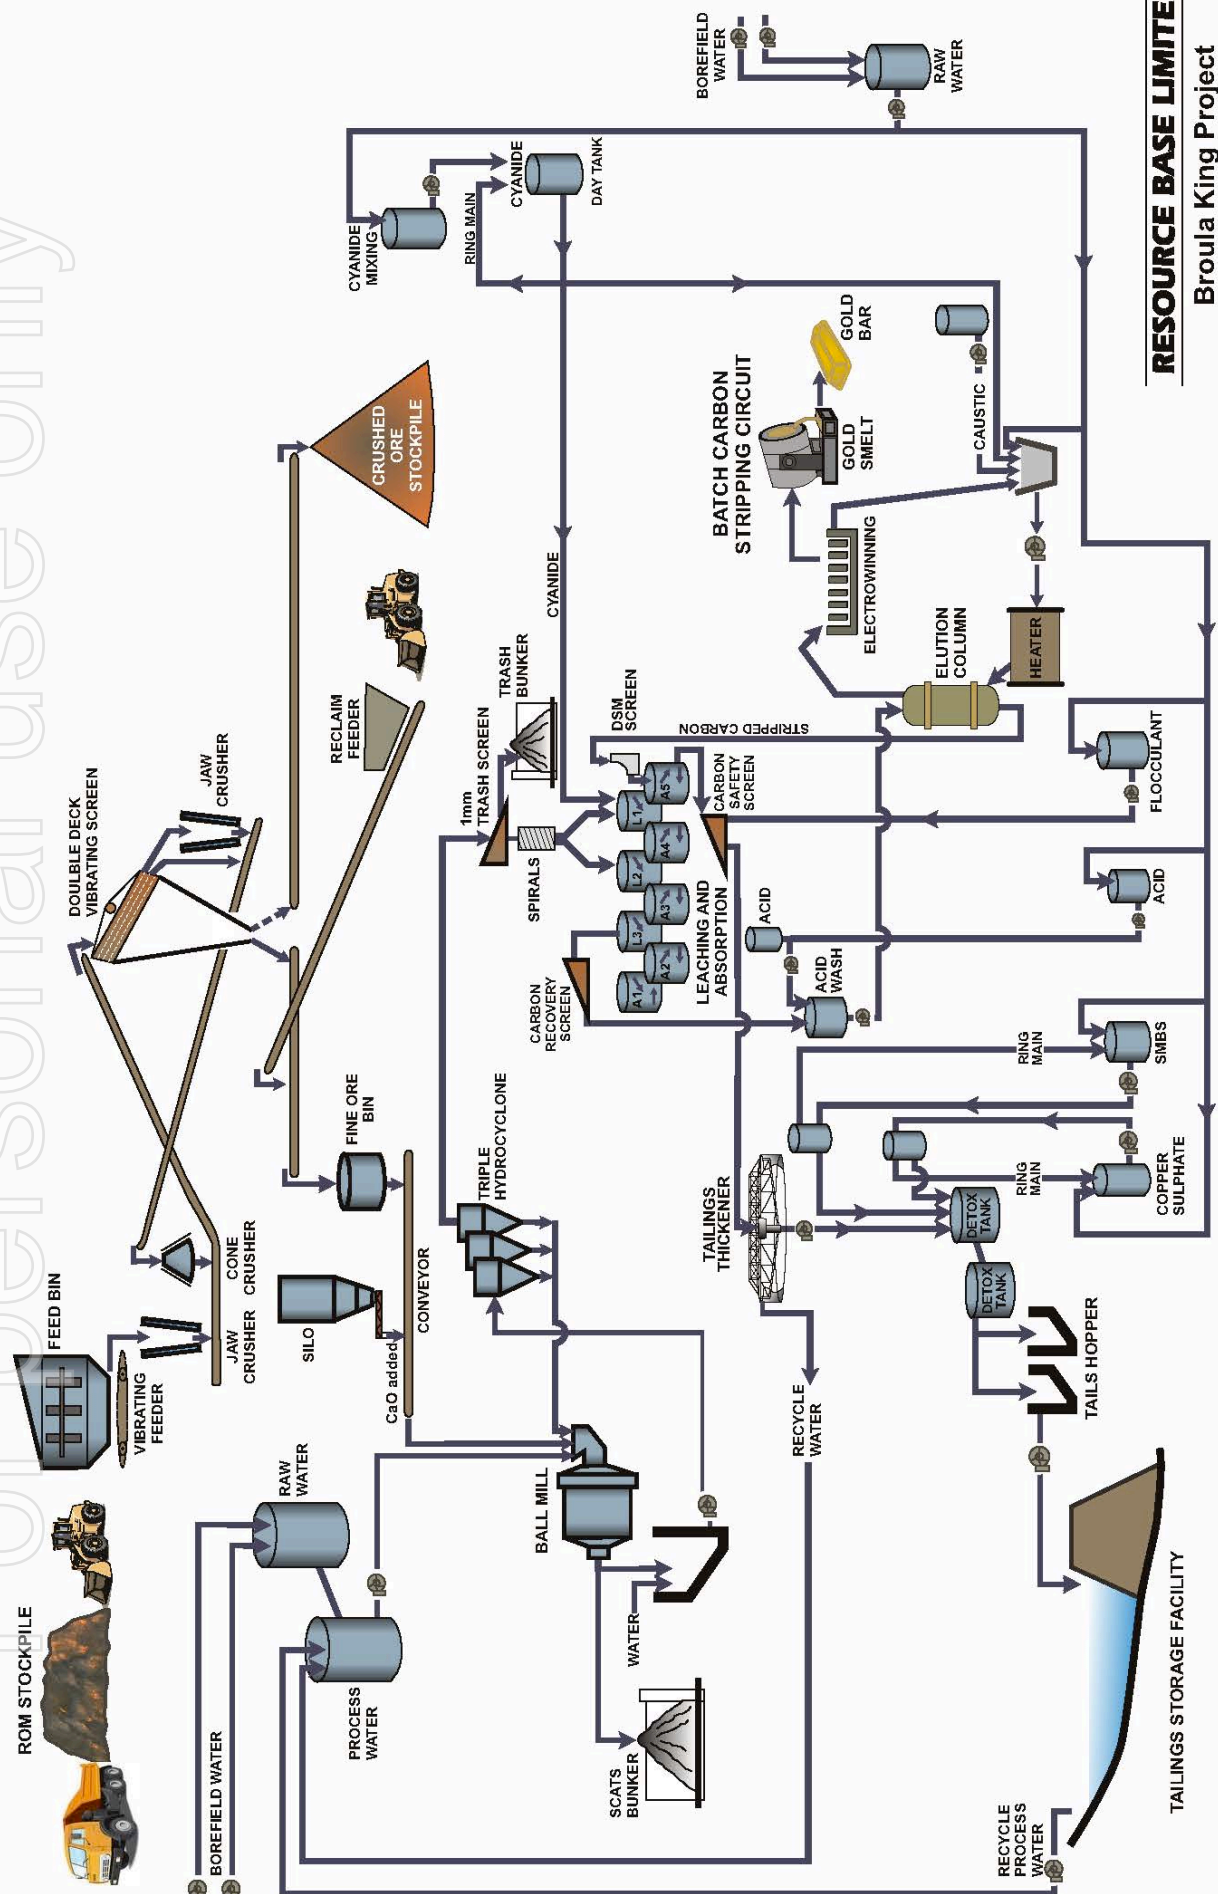

The Company has in-house, extensive and relevant experience in regard to project acquisition, environmental impact statements, plant procurement and construction and looks to leverage its position from the Broula King gold project. The Company has actively working through a number of future possible opportunities that have been either forwarded or researched by the consolidated entity. The Company will continue to monitor this position.

Notes

- 1 The quarterly report provides a basis for informing the market how the entity’s activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.

- 2 The “Nature of interest” (items 6.1 and 6.2) includes options in respect of interests in mining tenements and petroleum tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement or petroleum tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.

- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.

- 4 The definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report.

- 5 **Accounting Standards** ASX will accept, for example, the use of International Financial Reporting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
