

March 2015 Quarterly Activities Report

The Company is actively assessing a number of third party precious metal opportunities or outright purchase. In addition, the Company has been approached by a number of third parties seeking to transport ore to the Broula King treatment plant and as a result limit the capital requirement and reduce start up time for their projects.

The Company has in-house, extensive and relevant experience in regard to project acquisition, environmental impact statements, plant procurement and construction and looks to leverage its position from the Broula King gold project. The Company is actively working through a number of future possible opportunities that have been either forwarded or researched by the consolidated entity. The Company will continue to monitor this position.

BROULA KING MINE

The Broula King project is situated about 230 km due west of Sydney near Bumbaldry, lying mid-way between the towns of Grenfell and Cowra in the Central West slopes region of NSW, located approximately 500 meters from the main road. The Company completed the treatment plant and became operational in September 2012.

Mining and treatment was completed late in the September quarter and the site moved to care and maintenance during the December quarter.

The current tailings storage facility at Broula King would provide capacity for an additional 200,000 tonnes of capacity with a further lift of 3m. A second site has also been identified to potentially increase the tailings capacity significantly.

Notes

+ See chapter 19 for defined terms.

Appendix 5B

Mining exploration entity and oil and gas exploration entity quarterly report

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements and petroleum tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement or petroleum tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Financial Reporting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
