ASX ANNOUNCEMENT/MEDIA RELEASE

31st July 2015

QUARTERLY BUSINESS UPDATE

SkyFii delivers strong business growth and pipeline conversion

Data services company SkyFii Limited (ASX: SKF) (SkyFii, the Company) is pleased to provide the following update on its business activities for the three month period to 30 June 2015.

Highlights:

- **Significant pipeline growth:** qualified shopping centre pipeline grew from 300 to 450+
- **Continued conversion to contracts:** conversion of 5 initial tender discussions to trial services agreements and signing of a master services agreement with the GPT Group
- **Installations on track:** 7 new large shopping centres were added during the quarter, bringing the total number of live shopping centres to 17, a 70% growth in new installations quarter on quarter
- **Significant growth in total registered user base** from 644,000 to 880,000 unique users quarter on quarter
- **Significant increase in network usage by registered users:** growth in Wi-Fi sessions of +31% quarter on quarter
- **Increased venue traffic flows:** significant uplift in customer visits across all venues of 26.6 million during the quarter representing growth of +98% quarter on quarter

During the June 2015 quarter, SkyFii continued to execute its business plan and convert its retail pipeline into paid trial services agreements and a master service agreement.

SkyFii's portfolio of fully installed large format venues under new and existing contracts (excluding trials) grew from 10 to 17 in the quarter – a 70% qoq increase. In addition, SkyFii's current customer contracted pipeline (excluding trials), grew 141% during the quarter.

Key contract and pipeline highlights include:

- Continuation of services roll-out to a premium Australian shopping centre group through its partnership with a leading Australian telecommunications company
- Master Services Agreement signed with The GPT Group for provision of services to up to 19 retail mall and office properties
- Continuation of services roll-out to Iguatemi – Brazil's premier mall operator following the master services agreement announcement in the previous quarter which governs rollout to 16 large venues in Brazil
- Delivery of services to two additional Vicinity Centres retail shopping centres (formerly Federation Centres and Novion Property Group)

SkyFii also entered into a number of new trial service agreements during the quarter with the following groups:

- Precision property group
- Hawaiian property group
- Top Ryde Shopping Centre, currently owned by the Blackstone Group

- Barangaroo South precinct
- Merivale Hospitality Group

The above trials are currently underway and subject to their successful completion, the Company intends to pursue full portfolio roll-outs across these groups' portfolio of venues, which could result in long term contracts for an additional 78 new venues.

SkyFii is currently pursuing a qualified pipeline of 450+ shopping malls globally, which alone represent potential annual recurring revenues of between \$8 million and \$14 million.

During the June quarter, the Company also conducted a successful placement of \$2.8 million at \$0.22 per share to new and existing sophisticated shareholders.

Recap on SkyFii's sales process

The typical sales process, from pipeline to initial contract and full service roll-out, for SkyFii's analytics services includes:

- Initial tendering of commercial proposal
- Entry into trial services agreements which incorporate specified KPIs and deliverables for SkyFii
- Trial services contracts run for an approximate 4-6 week period
- Upon successful delivery of trial services, negotiation and entry into long term contracts to govern deployment and delivery of services

The structure of SkyFii's sales process, and its ability to deliver on the stipulated KPI's, provides the Company with strong confidence that it will continue to achieve a very high conversion rate of trial services agreements to long term contract roll-out.

Non-cash financing and investing activities

- 2.1 Details of financing and investing transactions which have had a material effect on consolidated assets and liabilities but did not involve cash flows

On 20 November 2014, the Company (formerly RKS Consolidated Limited) (RKS) acquired 100% of the issued capital of Skyfii Group Pty Ltd (SGPL). The acquisition was achieved following the RKS 1 for 10 share consolidation by issuing 70,000,000 ordinary shares in RKS to existing shareholders of SGPL. Following completion, the previous shareholders of RKS held 12.5% and shareholders of SGPL held 87.5% of the Company respectively. As a consequence of this and other factors, for accounting purposes the acquisition has been treated as a reverse takeover.
