

December 2015 Quarterly Activities Report

The Company has continue to assess various opportunities to lever off its ownership of the Broula King Project (Project). The Broula King mine and treatment plant in the central west slopes region of NSW was placed under care and maintenance in late 2014 is fully permitted for the cyanidation of gold ores. The Company is investigating the following opportunities:

1. The potential sale of the Project to third parties who wish to treat gold ore at its facilities.
2. Toll treatment of third party gold ores.
3. Sale of the Broula King plant to third parties which wish to relocate the plant.
4. The acquisition of third party gold orebodies.

The Company is also investigating the potential for the extraction of additional gold ores from the existing mining lease given the recent increase in the Australian gold price. A new geological assessment of the mining lease is underway.

During the quarter, Mr Alan Fraser retired as Managing Director and subsequent to the end of the quarter, Mr Martin Janes was appointed as Non-Executive Director.

BROULA KING PROJECT

The Broula King project is situated about 230 km due west of Sydney near Bumbaldry which is mid-way between the towns of Grenfell and Cowra. The modern 125,000 tpa CIL plant is fully permitted with existing tailings dam capacity with potential to increase that capacity. The plant successfully treated 183,863 tonnes of gold ore between 2012 and 2014.

Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements and petroleum tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement or petroleum tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Financial Reporting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
