

## NEWS RELEASE

### SKYFII ENTERS LONG TERM AGREEMENT WITH CINCINNATI BELL INC

**SYDNEY, AUSTRALIA, October 19, 2016** – Guest WiFi and data analytics company Skyfii (ASX: SKF) today announced a new partnership with Cincinnati Bell Inc. to provide guest WiFi analytics and intelligent marketing engagement services.

Skyfii's services will support Cincinnati Bell's ongoing "Light Up Cincinnati" campaign to connect residents, visitors, and businesses through technology. "Light Up Cincinnati" includes a growing network of free, high-speed Fioptics WiFi venues throughout Greater Cincinnati, as well as the Connect Cincinnati mobile app, which allows businesses to provide app users with exclusive and timely offers.

Cincinnati Bell currently offers Fioptics Free WiFi service with hundreds, growing to thousands, of access points across Greater Cincinnati, and more are planned for 2017. Cincinnati Bell also provides managed WiFi service to businesses that view connectivity as a key part of customer service.

The city's metropolitan population stands at around 2 million, but 24 million people visit the Cincinnati region each year, many of whom spend at least part of their stay in the city.<sup>1</sup>

"We hear about the concept of smart cities all the time – it's initiatives such as this that help turn concept into reality," said Wayne Arthur, Chief Executive Officer, Skyfii. "Our services, integrated with Cincinnati Bell's Fioptics Free WiFi services, will help provide a reliable marketing and communication platform for local events, advertising, and local businesses to promote their goods and services."

Cincinnati Bell will start integrating Skyfii services into its WiFi access points, which are powered by HPE Aruba Networks, later this year. The win represents a key high-profile customer for Skyfii in North America and opens up further opportunities to quickly grow throughout other Cincinnati Bell service areas.

"Skyfii's deep integration with HPE Aruba Networks products, strong capabilities, and responsiveness make them a valuable partner for Cincinnati Bell," said Rob Scott, Senior Director of Mobile Strategy for Cincinnati Bell.

"We are pleased to be partnering with Skyfii to create a whole new level of connectivity in the Cincinnati metro area, and to help us connect our customers with what matters most to them."
