31st October 2016

ASX: SKF

SKF QUARTERLY BUSINESS REVIEW

HIGHLIGHTS

- **Strong growth in cash receipts for the quarter of \$1.1m up 117% on the previous quarter**
- **Recurring revenues for the quarter of \$409k¹ up 16% on the previous quarter**
- **Landmark contract signed with Sydney's Waverley council to include the iconic Bondi beach**
- **First contract win in the US market announced with Cincinnati Bell Inc. in October 2016**
- **Skyfii named as spotlight eco-system partner of Aruba Networks**, a Hewlett Packard Enterprise company, for the global launch of the Aruba OS 8 platform
- **Total revenue pipeline growth continues to build - \$58m from advanced stage pipeline - up 9% on the previous quarter²**
- **Billing venues up 12% on previous quarter**, with 9 new venues going 'live' - consistent, quarter-on-quarter growth rate
- **Total registered user base** continues to build very strongly reaching **5.2 million unique users**
- **US and UK markets building significant advanced stage pipelines with new contract announcements anticipated in the next quarter (ending December 2016)**
- **Very strong growth in new venue rollouts in Brazil and South Africa**, with landmark contracts anticipated in both markets early in the next quarter
- **Strong cash position of \$1.5m plus \$0.9m R&D tax incentive received subsequent to end of quarter**

Data analytics services company Skyfii Limited (**Skyfii, the Company**) has today released its Appendix 4C Report for the three-month period to 30 September 2016 and is pleased to provide a review of the progress made during Q1 FY17.

Significant growth in recurring revenues & cash receipts

Skyfii enjoyed a record quarter for customer receipts, banking \$1.1m in customer receipts during the quarter. This represented a significant uplift, of 117%, on the previous quarter. Most importantly, the Company's recurring revenue receipts also increased significantly, up 16% on the previous quarter. This is largely due to additional shopping centre assets coming online during the quarter. Total operating revenue for the quarter was \$635k¹. This figure was down 19% on the previous quarter due to a number of one-off implementation fees recognised in June 2016 associated with the deployment of Skyfii's Guest WiFi and Analytics across a number of Australian shopping centres. These centres will contribute positively to the Company's revenue in coming quarters.

¹ Based on unaudited revenue from operations (excluding interest, grant and other income) for the quarters ending 30 September 2016 and 30 June 2016.

² Assuming full rollout and 5 year contract terms excluding additional revenues from advertising and data services.

Further product alignment and sales pipeline growth through growing Aruba partnership

In August 2016, Skyfii was named a spotlight eco-system partner of Aruba Networks, a Hewlett Packard Enterprise (HPE) company, alongside a number of high profile US based companies. The significance of this recognition has further strengthened the collaborative partnership between Aruba and Skyfii and has resulted in immediate growth in pipeline opportunities being brought to Skyfii through the Aruba Networks sales channels across the major geographical markets in which Skyfii operates.

Also in the quarter Skyfii completed integration with Aruba's ClearPass Network Access Control solution, further solidifying the seamless alignment between the Aruba product set and Skyfii. This alignment has further incentivised Aruba sales personnel and channel partners to recommend Skyfii as a preferred analytics and marketing platform which has resulted in significant growth in new revenue opportunities in major global markets.

Huge pipeline momentum in North America & EMEA

Since launching operations in North America and EMEA in the previous quarter, both markets have continued to build very strong, qualified pipelines, with several significant pilots already underway across a range of verticals including transit, retail, education and municipal.

At 30th September 2016, the North America and EMEA advanced stage 3-year pipeline stood at \$15m+ with new contract announcements anticipated early in the next quarter.

In addition to anticipated contract announcements, the Company has several very large and significant pilot customers engaged which have the potential to deliver large recurring revenues to the business during FY17.

In October 2016, the Company was pleased to announce its first contract win in the US market, with a long-term agreement with Cincinnati Bell Inc. to provide guest WiFi analytics and its marketing engagement services to support Cincinnati Bell's ongoing "Light Up Cincinnati" campaign.

Strong Cash Position

As at 30 September 2016, the Company maintained a sound cash position of \$1.5m. In addition, in October it received an R&D tax incentive rebate of \$0.9 million relating to research and development expenditures undertaken in FY16.

Key User Operating Metrics

In line with the Company's continued growth in contract deployments, all key operating metrics continue to experience significant growth, lending strong user validation of Skyfii's services:

- Total registered user base increased by +32% qoq from 3.9 million to 5.2 million unique users
- Growth in WiFi sessions of +46% qoq
- Customer venue visits increased by +33% qoq
- Data transferred grew by +37% qoq

Outlook

Skyfii will continue to invest in growth within the Australian and New Zealand markets and on growing its leading market share position within its key verticals. We anticipate converting new client contracts within the retail vertical early in the next quarter.

The Company’s international growth rate is extremely pleasing and in addition to notable anticipated contract conversions in ANZ, it anticipates strong news flow on key contract wins within the markets of Brazil and South Africa, early in the next quarter.

Skyfii’s extended product integration with key hardware vendor partners continues to drive revenue opportunities across the globe, with new and exciting opportunities across Europe, the UAE and Latin America in conjunction with North America and the United Kingdom.

Skyfii’s CEO Wayne Arthur said, “We are extremely positive about the outlook for the remainder of FY17 and into FY18, and with a clear line of sight to a cash flow break even position on current trajectory, we are confident in our operating model and pleased with our continued execution against objectives.”

ABOUT SKYFII

Advancements in cloud, mobile technology and Wi-Fi systems have enabled bricks-and-mortar venues to become more competitive by better understanding the needs of their diverse types of visitors. Today, every smartphone is a chatterbox of information. The cloud-based Skyfii platform uses existing Wi-Fi infrastructure, BLE beacon networks, door-to-people counters, video sources, web and social platforms to allow various types of venues to not only analyse behaviour of anonymous visitors, but also capture data from those who opt-in to free Internet connectivity. In doing so, it converts the data into a critical sales and marketing tool that allows venues and their commercial tenants to deliver content that is catered to each visitor's needs and interests. Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
