## Notes to the financial statements

For the half-year ended 31 December 2016

### 1. Summary of significant accounting policies

#### (a) Basis of preparation of interim financial report

These general purpose interim financial statements for the half-year reporting period ended 31 December 2016 have been prepared in accordance with requirements of the *Corporations Act 2001* and Australian Accounting Standard AASB 134: *Interim Financial Reporting*. Skyfii Limited is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

This interim financial report is intended to provide users with an update on the latest annual financial statements of Skyfii Limited and its controlled entities (referred to as the "consolidated group" or "group"). As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2016, together with any public announcements made during the following half-year. The accounting policies adopted in the preparation of the consolidated interim financial statements are consistent with those adopted in the Group's annual financial report for the year ended 30 June 2016.

These interim financial statements were authorised for issue on 28 February 2017.

#### (b) Critical accounting estimates

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the interim financial report, are disclosed in the 2016 Annual Report.

#### (c) Segment reporting

The Group operates predominantly in one industry and one geographical segment, being the development and commercialisation of data analytics, marketing and advertising services to its customers in Australia. At this stage the Group's overseas operations are in start-up phase and not significant to the Group. The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

#### (d) Accounting standards issued but not yet effective

Certain new accounting standards and interpretations have been published that are not mandatory for the current reporting period. The Group has assessed the impact of these new standards and interpretations, and does not expect that initial application will affect any of the amounts recognised in the financial report, but may change the disclosures presently made in relation to the Group. For further details refer to the 2016 Annual Report.

#### (e) Going concern

The financial statements of the Group have been prepared on a going concern basis, which contemplates the continuation of normal business operations and the realisation of assets and settlement of liabilities in the normal course of business.

The Group is in the research, development and commercialisation stage of its data analytics technology and services. During the half-year ended 31 December 2016 the Group incurred a loss after tax of \$2,274,117 and incurred cash outflows from operating activities of \$713,384 for the period. At 31 December 2016, the Group had a surplus in net current assets of \$3,416,719 and a surplus in net assets of \$6,700,446.

The Group has to date been successful in raising equity capital since the Company's re-listing in November 2014, having undertaken a private placement to new and existing investors of \$2,800,000 in May 2015, \$4,105,000 in November 2015, and more recently the Group conducted a two tranche private placement to new and existing sophisticated investors to raise \$2,572,767 in December 2016, and a further \$1,661,880 in February 2017 (of which \$796,470 is expected to settle in March 2017). In addition, the Company raised \$491,000 via a share purchase plan to existing eligible shareholders in February 2017.

Management have prepared cash flow projections that support the Group's ability to continue as a going concern. The Directors of the Company consider that the cash flow projections and assumptions are achievable, and in the longer term, significant revenues will be generated from the commercialisation of intellectual property, and accordingly, the Group will be able to continue as a going concern.

#### (c) Ordinary shares

Ordinary shares have the right to receive dividends as declared, and, in the event of winding up the Company, to participate in the proceeds from the sale of all surplus assets in proportion to the number of and amounts paid up on shares held. Ordinary shares entitle their holder to one vote, either in person or by proxy, at a meeting of the Company.

#### (d) Employee Share Plan (ESP)

Information relating to the Employee Share Plan can be found in the Company's annual report for the year ended 30 June 2016.

#### (e) Earn Out Shares

Information relating to the Earn Out Shares issued in the year ended 30 June 2016 can be found in the Company's annual report for the year ended 30 June 2016.

<sup>1</sup> All eligible employees who accepted an offer of ESP shares were given an interest free loan from the Company to finance the whole of the purchase of the ESP shares they were invited to apply for (**ESP Loan**). The ESP Loans are provided to participants on a non-recourse basis and upon vesting must be repaid in order to remove trading restrictions on vested ESP shares. The term of the ESP Loan is five years however participants may forfeit their ESP shares if they do not repay the ESP Loan or leave the Company under certain scenarios. As the ESP removes the risk to participants from decreases in the share price by limiting the maximum loan amount repayable to the value of the ESP shares disposed and waiving the ESP Loan should the participant forfeit their ESP shares, whilst still allowing participants the rewards of any increase in share price, the Company has effectively granted the participants an option to the ESP shares due to the ESP Loans being non-recourse. As such, this arrangement is accounted for under AASB 2.

### (f) Options over unissued ordinary shares

The Company granted the following options to Directors, convertible into the same number of ordinary shares in the Company, on the basis of shareholder approval granted on 30 November 2016:

Number of options	Option consideration	Expiry date	Exercise price per option
1,000,000	\$0.00	30 November 2019	\$0.100
1,000,000	\$0.00	30 November 2019	\$0.125
1,000,000	\$0.00	30 November 2019	\$0.150
1,000,000	\$0.00	30 November 2019	\$0.200
1,000,000	\$0.00	30 November 2019	\$0.300

The fair value of the options over the shares is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured and recognised at grant date, being 30 November 2016.

The fair value at grant date is determined using the Black-Scholes option pricing model that takes into account the exercise price, the term of the options, the impact of dilution, the non-tradeable nature of the options, the share price at grant date and expected price volatility of the underlying shares, the expected dividend yield and the risk-free interest rate for the term of the options.
