# Removal of the Company from the ASX official list

## Rationale for proposed removal from the ASX

- Low level of trading on the ASX creating share price volatility
- Better position to negotiate a more favourable position on debt and capital structure with the National Australia Bank (NAB)
- Cost of remaining listed on the ASX

## Potential disadvantages of proposed removal from the ASX

- Sale of shares only possible through off-market private transactions
- Potentially a more complex structure around how capital can be raised
- ASX listing rules will no longer apply

## Formal Business – Removal of Company from the ASX

To Consider and if thought fit to pass the following ordinary resolution:

‘That, for the purposes of ASX Listing Rule 17.11 and for all other purposes, shareholders approve the Company’s removal from the official list of the ASX on a date to be decided by the ASX (being a date no earlier than one month after the date of this resolution is passed) and that the Directors be authorised to do things reasonably necessary or desirable to give effect to the removal of the Company from the official list of the ASX’
