# **COMPETITIVE LANDSCAPE**

# Competitive landscape

**CUSTOMER OUTCOMES** 

### **Shopper Sentiment Research**

### Challenge

A Shopping Centre client wanted to accelerate their tactical research initiatives and leverage technology to improve the way they survey visitors and capture shopper sentiment data:

- Contact qualified customers with recent shopping experiences
- Improve the quality of research data
- Minimise the impact to shoppers.

### **Solution**

- Creation of exit survey delivered to customers 60 min after their visit
- Correlate research data with behavioural data for improved insights and audience selection.

### Results

- Completion rate 2.5 times higher than surveys sent via bulk eDM
- Survey now rolled out group wide across 9 assets

## Improving Shopper Experience

### Challenge

A South African retailer worked with Skyfii to leverage the proximity campaign toolset to drive marketing initiatives and improve Shopper experience with surprise and delight initiatives and improved visitor communication.

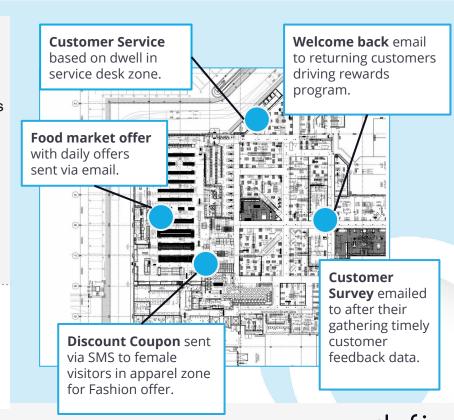

### **Solution**

- Targeted messages based on gender & loyalty
- Contact thresholds preventing over communication
- Multi venue campaign targeting
- Marketing, operations and research initiatives

### **Results**

- Successful implementation of all defined proximity targeted campaigns
- Over 90% delivery rate

### Sales Event Shopper Retention

### Challenge

A Shopping Centre client runs a major quarterly centre-wide sales event that brings in new customers from a wider trade area than typically. Unfortunately, these customers, who are primarily driven by the retail offers, are unlikely to be retained and remain loyal to the centre.

### **Solution**

- The Data Consulting Services (DCS) team segmented and analysed the behaviour of the new segment of shoppers drawn in by the sale.
- After the event, the customers that did return were correlated with the categories that they engaged with during the sale to identify which offers drive not only sales, but ongoing loyalty.

### Results

 Insights led to a highly successful follow up event, informing a centre event activation focused on high retention retail offers.
