This Interim Financial Report does not include all the notes normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2017 and any public announcements made by Skyfii Limited during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

1. Summary of significant accounting policies

(a) Basis of preparation of interim financial report

These general purpose interim financial statements for the half-year reporting period ended 31 December 2017 have been prepared in accordance with requirements of the Corporations Act 2001 and Australian Accounting Standard AASB 134: Interim Financial Reporting. Skyfii Limited is a for-profit entity for financial reporting purposes under Australian Accounting Standards.

This interim financial report is intended to provide users with an update on the latest annual financial statements of Skyfii Limited and its controlled entities (referred to as the "consolidated group" or "group"). As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2017, together with any public announcements made during the following half-year. The accounting policies adopted in the preparation of the consolidated interim financial statements are consistent with those adopted in the Group's annual financial report for the year ended 30 June 2017, with the addition of the following:

Intangibles

Customer Contracts

Customer contracts acquired are carried at their fair value at date of acquisition, less accumulated amortisation. They are amortised on a straight-line basis over the period of their expected benefit, being their finite useful life between five and ten years.

These interim financial statements were authorised for issue on 23 February 2018.

(b) Critical accounting estimates

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the interim financial report, are disclosed in the 2017 Annual Report.

(c) Segment reporting

The Group operates predominantly in one industry and one geographical segment, being the development and commercialisation of data analytics, marketing and advertising services to its customers in Australia. At this stage the Group's overseas operations are not significant to the Group during this 1H FY18 reporting period. The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

(d) Accounting standards issued but not yet effective

Certain new accounting standards and interpretations have been published that are not mandatory for the current reporting period. The Group has assessed the impact of these new standards and interpretations and does not expect that initial application will affect any of the amounts recognised in the financial report but may change the disclosures presently made in relation to the Group. For further details refer to the 2017 Annual Report.

(e) Going concern

The financial statements of the Group have been prepared on a going concern basis, which contemplates the continuation of normal business operations and the realisation of assets and settlement of liabilities in the normal course of business.

The Group is in the research, development and commercialisation stage of its data analytics technology and services. During the half-year ended 31 December 2017 the Group incurred a loss after tax of \$1,098,878. At 31 December 2017, the Group had a surplus in net current assets of \$2,374,143 and a surplus in net assets of \$5,751,522.

Management have prepared cash flow projections that support the Group's ability to continue as a going concern.

The Directors of the Company consider that the cash flow projections and assumptions are achievable, and in the longer term, significant revenues will be generated from the commercialisation of intellectual property, and accordingly, the Group will be able to continue as a going concern.

(f) Options over unissued ordinary shares

The Company granted the following options to Directors, convertible into the same number of ordinary shares in the Company, on the basis of shareholder approval granted on 30 November 2016:

Number of options	Option consideration	Expiry date	Exercise price per option
1,000,000	\$0.00	30 November 2019	\$0.100
1,000,000	\$0.00	30 November 2019	\$0.125
1,000,000	\$0.00	30 November 2019	\$0.150

1,000,000	\$0.00	30 November 2019	\$0.300

The fair value of the options over the shares is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured and recognised at grant date, being 30 November 2016.

The fair value at grant date is determined using the Black-Scholes option pricing model that takes into account the exercise price, the term of the options, the impact of dilution, the non-tradeable nature of the options, the share price at grant date and expected price volatility of the underlying shares, the expected dividend yield and the risk-free interest rate for the term of the options.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Australian Standard on Review Engagements ASRE 2410: Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of Skyfii Limited's financial position as at 31 December 2017 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134: Interim Financial Reporting and the Corporations Regulations 2001. A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
