ASX Market Announcements

**BROKEN HILL COBALT-NICKEL PROJECT  
CONFIRMED NATIVE TITLE EXTINGUISHED WITHIN EL 8745 AND EL 8746**

Ausmon Resources Limited (ASX:AOA) advises that the Department of Planning and Environment – Division of Resources and Geoscience has today confirmed it is satisfied that sufficient evidence exists that native title has been extinguished within Exploration Licences 8745 and 8746 in NSW.

Consequently exploration within those licences would not require native title compliance procedures which under certain circumstances can be lengthy and costly.
