The Period in Review

The financial year ended 31 July 2018 was a year of significant change and turnaround for Funtastic with the business returning to profitability following several loss-making years. The strategic plan outlined at the beginning of the year has begun to deliver the sustainable revenue and profitability growth that it has been designed to do. The review of the cost base has delivered significant savings and there will remain an ongoing focus of minimising both fixed and variable costs. The implementation of improved, disciplined business processes combined with enhanced commercial acumen has begun to streamline the product range and will drive ongoing margin improvements. A focus on developing long term supply partnerships and reducing dependence on transactional opportunities has led to the business being awarded a number of significant licensing opportunities.

Highlights for the year ended 31 July 2018 included:

- A return to profitability with operating FY18 EBITDA of \$2.5m, \$8.1m higher than FY17 operating EBITDA loss of (\$5.6m).
- The completion of the sale of a segment of the previously loss-making international business for \$2.1m, reducing fixed costs and significantly improving cashflows.
- Completion of a fixed cost review that has delivered an ongoing reduction in fixed overheads by \$2.0m.
- Completion of the transition to a variable logistics model that has delivered cost savings of \$1.2m per annum.
- Securing the Toy Story 4 licensing rights for Australia and New Zealand, a major achievement that has positioned the company within the top 150 licensing companies globally, building on the foundation of other major licenses such as JoJo Siwa, Paw Patrol, LOL and others.
- A restructuring of debt facilities was completed in the first half of FY18, reducing debt by \$36.0m.
- A successful capital raising of \$8.4m was completed in September 2017. Together with the debt reduction noted above the Company's balance sheet was significantly strengthened.

Post balance date events:

• Post balance date, a further restructuring of debt facilities was announced and is expected to be completed in mid-October 2018. Additionally, an \$8.2m capital raising via a placement and entitlement offer was announced and this is also expected to be completed in mid-October 2018. The debt restructure and capital raising together will return the Company to a positive net asset position and the balance sheet is equipped for future growth.

The Board's key strategies for FY19 performance include:

- 1. Ongoing enhancement of the licencing portfolio, building on key relationships
- 2. Development and growth of our own brands
- 3. Capitalising on emerging technologies and trends
- 4. Further improvement of cash management disciplines, driving balance sheet strength
- 5. Continual investment in our people, culture and leadership

Outlook

Funtastic expects the following business outlook for FY19:

- Funtastic sells, markets and distributes products within the Toy, Apparel, Tech and Confectionery categories.
 These categories remain relevant and valued by both major and specialty retailers. All categories are profitable with Toys, dominated by one off transactions, being our largest strategic challenge.
- Funtastic has secured the licensing rights for Toy Story 4 and will continue to seek other licensing opportunities, building on its foundation of the licenses for JoJo Siwa, Paw Patrol, LOL and others.
- Funtastic has secured the Australia/New Zealand distribution rights for Pai International and Learning Resources as the company expands its consumer offering into the learning and STEM¹ categories.
- The Australian e-commerce and speciality channels are poised for growth as consumer purchasing behaviour evolves. Funtastic has resourced and positioned itself to maximise growth from this opportunity.
- Opportunities to develop and grow own brands (Pillow Pets, Chill factor and Floaties) both domestically and internationally continue to be pursued. Improved distribution and consumption opportunities exist in brands such as Razor, Beacon, JoJo, LOL Accessories and Orbeez.
- Divestment, refinancing and successful implementation of a lower cost structure have positioned the business to accelerate growth initiatives.
- Funtastic will continue to build on its strong customer and supplier relationships and sourcing competency.
- The Company expects to build on its return to profitability in FY18 and deliver further growth and profitability in FY19.
- 1 Science, Technology, Engineering, Maths

Audit report

While the accounts are in the process of being audited, the accounts are likely to contain an independent audit report that is subject to an emphasis of matter in relation to the material uncertainty related to going concern. Given the post balance date debt restructuring and capital raising currently taking place, the directors are satisfied that the Company will continue as a going concern.

NOTE 1: Basis of preparation

This preliminary final report has been prepared in accordance with ASX listing Rule 4.3A and the disclosure requirements of ASX Appendix 4E.

This preliminary final report is a general purpose financial report that has been prepared in accordance with Australian Accounting Standards, including Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001.

The preliminary final report covers the consolidated group of Funtastic Limited and its controlled entities (Consolidated Group). Funtastic Limited is a public company, incorporated and domiciled in Australia.

The preliminary final report of Funtastic Limited and its controlled entities complies with all International Financial Reporting Standards (IFRS) in their entirety.

Going concern basis

The financial report has been prepared on the going concern basis which contemplates the continuity of business activities and the realisation of assets and the payment of liabilities in the normal course of business.

The profit for the period from continuing operations is \$28,167,000.

The net asset deficiency as at 31st July 2018 of \$14,266,000 is in the process of being addressed post balance sheet date with the announcement of a full and final settlement of the NAB bank debt (subject to a debt repayment of approximately \$5,000,000 and other obligations) funded by a proposed capital raising that is expected to be completed in mid-October 2018.

Funtastic is now well positioned to deliver improved results in future years.

The ability for the Group to continue as a going concern is dependent upon the following factors:

- Sustaining the improved financial results through normal trading and achieving budgeted results
- Continued support of creditors and customers through appropriate trading terms

The directors believe that the Group will be able to achieve the improved results and are satisfied that the Group will continue as a going concern. Accordingly, the financial report has been prepared on a going concern basis.

Reporting basis and conventions

The preliminary final report has been prepared on an accrual basis and is based on historical costs modified by the revaluation of selected non-current assets, financial assets and financial liabilities for which fair value accounting has been applied.

As impairment indicators were present for intangible assets, AASB136 required performance of an impairment assessment of the various other intangibles. This has been performed, based on the royalty relief method, by applying a market related royalty rate to the expected future sales and terminal growth rate, which is a level three valuation in the fair value hierarchy. Projected sales were calculated based on approved FY2019 budget and management's view of longer-term performance expectations. The estimated product life cycle was included in the calculation.

Bank debt restructure – The Company has been in negotiations with its Bankers, the National Australia Bank (NAB) regarding the future and structure of the bank debt. Thanks to the significant support of the NAB, who have been with the Company for many years, it was agreed on 7th September 2018 for a full and final settlement of all liabilities owing to NAB subject to the payment of approximately \$5.0 million and satisfactory completion of several other obligations. The reduction in financial indebtedness will total approximately \$21.3 million comprising a \$5.0 million repayment and a \$16.3 million debt forgiveness. The full impact of this was discussed in the recent Capital Raising documents announced to the ASX and will be included in the January 2019 half year accounts.

Capital raising – On 13th September 2018, the Company successfully completed a capital raising of \$1.2 million by way of a share placement to sophisticated and professional investors.
