

MARKET UPDATE FOR QUARTER ENDED 31 MARCH 2019

BauMart Holdings Limited (ASX: BMH) ("BauMart" or the "Company") is pleased to present its quarterly cash report for the period ended 31 March 2019 and advises:

Materials Handling Supply Division

- Strong quarter with revenue up 57% compared to same period last year, while year to date revenue is up 75% compared to same period in the last financial year
- Year to date revenue for the 9 months to 31 March 2019 has already surpassed FY18 total revenue
- New product development of pallets and crates for heavy duty applications positions the division to generate increasing capital orders from industries requiring hygienic unit load devices
- The resurgent resources industry is producing stable longer-term orders, in particular from gold and oil & gas producers, as new mine and offshore sites are developed, or existing ones expanded
- During the quarter, the Sydney distribution centre was relocated into a more logistically convenient location with minimal interruption to operations
- The division enters the final quarter of FY19 with excellent momentum as the Australia-wide distribution platform continues to deliver positive results

Building Materials Supply Division

- The Queensland region generated positive enquiries and future opportunities during the quarter, with sales also gathering good momentum
- Demand outstripped stock availability during the quarter with the division's flagship Green Sukabumi stone product becoming increasingly popular. This has resulted in several accounts with back orders waiting for the next shipment to arrive
- Sale and distribution of glass products and wood plastic composite decking were slightly down during the quarter
- The division's growing portfolio of architects, builders, designers, property developers and pool builders present promising opportunities to expand the divisions product reach

Other Income

- The glass processing equipment is in good working order with all lines reported as operating well. The Company continues to engage with its operator to maximise opportunities in the eastern states market
