## **Ovato Limited announces fully underwritten Entitlement Offer to raise approximately \$15.5 million and FY19 Trading Update**

**Ovato Limited** (ASX: OVT) (**Ovato** or the **Company**) is pleased to advise that it has launched a fully underwritten accelerated non-renounceable entitlement offer to existing shareholders, offering 1 new fully paid ordinary share in Ovato for every 2.3 shares held at the record date (**New Shares**) at A\$0.07 per New Share (**Offer Price**) to raise gross proceeds of approximately A\$15.5 million (**Entitlement Offer**).

Ovato will primarily use the funds from the Entitlement Offer to:

- strengthen the Company's balance sheet by reducing leverage and providing additional financial flexibility; and
- accelerate the completion of the NSW Site Consolidation project.

### **Ovato's Strategy**

- Ovato's strategy is to create a smarter, sustainable and more profitable platform capable of turning audiences into customers.
- This strategy is being implemented via providing enhanced value and product breadth to customers, together with a continued pursuit of operational efficiencies.
- Ovato continues to reduce its underlying cost base, while building capabilities with data and new technology to enhance customer value and drive growth.

### **Trading Update and FY19 Outlook**

In line with the Company's stated strategy Ovato has continued to focus on cost-out initiatives, including the NSW Site Consolidation to the "Super Site" which is on track to be completed earlier than expected and on budget. The NSW Site Consolidation is expected to deliver total annualised savings of approximately \$24 million from FY21 (\$4 million in FY19, \$14 million in FY20 and \$6 million in FY21). Additionally, Australian Print and Distribution catalogue volumes from Tier 1 retailers have remained resilient and in line with expectations. However, the Company has faced challenging industry headwinds resulting in:

- Print Australia revenues have been softer than expected with revenue in 2H FY19 expected to be down approximately 12% on FY18 due to:
  - A fall in newspaper volumes at a greater pace than expected, following masthead closures and move to cold-set printing by publishers;
  - Increased competition for Ovato's publishing and retail customers;
  - Softer retail conditions and temporary reduction in activity associated with the recent NSW State and Federal elections which has led to lower than expected uncontracted new business; and

- Ovato NZ revenues lower than expected due to industry overcapacity and continued price led pursuit of market share.

Outlook for the remainder of the financial year ending 30 June 2019:

- Updated FY19 EBITDA guidance to be in the range of \$30 million – \$33 million<sup>1</sup>
  - Previously guided to around the low end of \$37 million - \$40 million<sup>1</sup>
- FY19 Net Debt of approximately to be reduced to \$42 million to \$46 million following receipt of Entitlement Offer proceeds
  - Previously guided to \$45 million - \$50 million
- Pro Forma FY19 Net Debt to EBITDA expected to reduce to circa 1.4x<sup>2</sup>

Ovato believe the implementation of its various strategies in building an integrated print media and marketing services business with a diverse stream of revenue sources will drive an efficient and profitable Ovato in the future.
